

99 x 210mm Magnet Template

Bleed Area: 102 x 213mm
Extend your background to fill the full bleed area. This will ensure you don't end up with white edges when your Magnets are trimmed.

- Edit and save your file in CMYK
- Minimum font size: 6pt
- Minimum stroke thickness: 0.4pt
- Images should be 300dpi when importing
- Delete the artwork guideline group before saving

Trim: 99 x 210mm
This is where we aim to cut your Magnets.

Safe Zone: 93 x 204mm
Keep all the important bits of your design: text, logo, icons - inside this area. (Not your background, that still needs to run too the edges of the Bleed Area)
